

Also Introducing the New Log Splitter

Barreto has also added a new log splitter to our product line. The new Barreto 620 offers 20 ton ram and operates both vertically and horizontally. Capable of splitting logs up to 24", the Barreto 620 log splitter is the perfect addition to your rental fleet.

Please pass this announcement on to the owner or manager. Thank you!

Since 1983, Barreto's award-winning innovation in design and technology has made it the world leader in all-hydraulic walk-behind tillers and trenchers. We are committed to building the highest quality product so our customers can enjoy the greatest return on their investment.

To order or for more information about the new steerable trencher and log splitter or other Barreto equipment, call 1-800-525-7348.
